#Task

Display the list of services by using the following API data:

<https://fir-dynamiclinks-e43dd.web.app/practical-api.json>

You need to display 2 (two) lists of services one is Purchased services and another is Additional services.

You need to split the services by the following condition:

- If the object in the purchased_office_services array has service_selected object, consider the service as purchased and need to display above the total section
- If the object in the purchased_office_services array has service_selected=null or undefined, consider the service as additional services and need to display below the total section
- Display the list and the total amount of purchased services in total section.
- Show the listing in the following manner
 - Main service 1
 - Sub-service
 - Main service 2
 - Sub service 2

Find the screenshot below for your reference.
